

Quality Policy

TDI is committed to providing quality in design, development, and production of very small, low cost, jet engine systems to our customers by:

Consistently meeting our customer's requirements for product quality and performance

Timely delivery of products to meet our customer's requirements

Continual improvement of TDI products and the Quality System

Ensuring all TDI personnel are properly trained and competent

A handwritten signature in black ink, reading "Joseph J. Kovasity". The signature is written in a cursive style with a prominent 'J' and 'K'.

Joseph J. Kovasity
Senior Vice President
Technical Directions Inc.
